Just stick with me and we'll make the best of what's left.

2. The banks may fail but your credit's always good with me.

Whatever you bring to the table I will accept gratefully.

I know what you're missing. I know why you're feeling bereft.

So stick with me and we'll make the best of what's left.

3. The Blue Jay's on the fence. The Raven is in the tree.

4. Hunger's in the wind. Panic's in the air we breathe.

But stick with me and we'll make the best of what's left.

5. Hold your purse tight, let's run and catch the midnight train.

It's not going to wait, and it may not be here again.

They say this old town is filled with larceny and theft.

But stick with me and we'll make the best of what's left.
